

LITE FLITE NEWSLETTER #2

DECEMBER 2009

Dubai Air Show 2009

The show was officially opened by Their Highnesses Sheikh Mohammed Bin Rashid Al Maktoum, UAE Vice President and Prime Minister and Ruler of Dubai and Sheikh Mohammed Bin Zayed Al Nahyan, Crown Prince of Abu Dhabi and Deputy Supreme Commander of the UAE Armed Forces.

Lite Flite distributor in the Middle East, Dahra Logistics and Marketing, based in Oman, made it possible with a very short notice for us to exhibit the Lite Flite helicopter rescue equipment at the 11th Dubai Air Show in November 2009.

Thanks to CEO Sqn Ldr (Rtd) Khamis Al-Ajmi, who recently ordered 12 complete set of Lite Flite rescue equipment for delivery to the Flying Police of Bahrain, we displayed the Lite Flite equipment to 45.000 visitors over 6 days.

The Dubai Air Show was a tremendous success leading to a lot of new markets in new areas of the world. We are extremely grateful to Dahra Logistics & Marketing for making this possible.

Our web site

A few new features have been added to our web site www.lite-flite.aero. It is now possible to change language, currently between English and Danish, simply by clicking the corresponding flags near the bottom.

And in the NEWS section, you now have the possibility to change your newsletter settings, you can subscribe and unsubscribe, change your name and your preferred language as well.

The content of the website is growing and will continue to do so.

LITE FLITE NEWSLETTER #2

DECEMBER 2009

New staff

Since the release of the former newsletter, we had the pleasure to say hello to two new and very skilled employees.

We welcomed Johnny Tiphede Kristensen to the company as our new QA Manager at November 2nd, 2009. He left a position in the quality management department at GKN-Wheels Nagbøl A/S where his responsibilities included ISO 9001 documentation and maintenance of the companys quality standards. Johnnys primary responsibility at Lite Flite is not only the quality assesment itself, it also includes the preparation work needed for our coming EASA POA and ADOA certifications.

We were happy to welcome Gitte Niemann as a Dream Sewing Magician to the company October 15th, 2009. What comes from her skilled hands is beyond imagination. She will be working in close cooperation with her department colleges Lene Thomsen and Marlene Lund. We are looking very much forward to benefit from her long professional experience.

Lite Flite

2009 was the year where we enlarged and modernized our factory in Vamdrup. We enlarged our staff and we are now prepared for new exiting challenges.

We plan to exhibit the LITE FLITE helicopter rescue equipment at following two international events in 2010:

SHEPHARD SAR Conference in Aberdeen, Scotland, April 21st and 22nd 2010, Booth no. 17.

HELITECH exhibition in Estoril, Portugal, October 5th to 7th 2010. Booth no. 508.

It will give us great pleasure to show to you our extensive program as well as the exiting new items to be released in 2010. Please visit us either in Aberdeen or in Estoril or both.

This will be the last Lite Flite Newsletter in 2009, and we would like to express our sincere gratitude to all of you who showed interest in our business and our concept during the past year. Without dedicated customers and business associates our success had not been possible. We are ready to support you in 2010.

We wish you a Merry Christmas and a happy and prosperous new year.
